Course Outline

With over 1.2 billion users worldwide, chances are you are familiar with the Facebook social media platform but are probably not using its full potential when it comes to your organisation or business. This advanced Facebook marketing training course introduces you to the more in-depth and business specific features that exist in Facebook, allowing you to utilise the more powerful techniques when it comes to social media marketing.

By learning these advanced techniques, you will be equipped to harness the full power of Facebook as an effective part of your online digital presence. You will also learn methods to engage effectively with your followers through contests, promotions and interactive postings. This one day training course uses a combination of practical exercises, presentations and case studies, as well as some technical methods to access some of the more uncommon features of Facebook.

The training course lasts one full day starting at 9.30am until 5.00pm, and is inclusive of course materials, certificate, lunch, refreshments and snacks, along with complimentary four week post course support and assistance.

A wi- fi enabled laptop (not iPad or tablet) is required for this course along with a basic understanding of ICT and the internet.

Course Trainer

Abdul Awwal Mahmood

Abdul Awwal, born and raised in the city of Birmingham, United Kingdom, graduated from the initial batch of seven students who formed part of the innovative Multimedia degree program in the first ever such course offered by any educational establishment in the UK. Teesside University, based in the north of England in the city of Middlesbrough, was known as an innovative and genre-creating institute, producing experts in the fields of computing and technology.

Working closely with a variety of companies and organisations, covering such diverse areas as travel, retail, telecommunications, charities and media, Abdul Awwal has built up an impressive knowledge base, placing him in a position where he can effectively expound the benefits and usage of the vast tools available to small and medium businesses, when it comes to utilising online and digital solutions.
