Course Outline

There is no denying the fact that social media has become a necessary part of a businesses marketing strategy, with customers and clients relying on brands and products to have visibility and transparency online. With this expectation firmly embedded in the minds of the consumer, it is vital for businesses and brands to utilise the very latest techniques and principles in social media to keep ahead of the competition. Our advanced social media training course concentrates on techniques that allow high quality content production, with a variety of objectives set as targets.

By learning the very latest strategies as used by leading global brands, marketers can effectively use the power of social media to greatly enhance online presence. Using a combination of case studies, practical workshops and interactive exercises, this training course will take participants through optimum content creation techniques using a variety of social media platforms. With real world examples, attendees will benefit hands-on and learn easy to implement strategies.

The training course lasts one full day starting at 9.30am until 5.00pm, and is inclusive of course materials, certificate, lunch, refreshments and snacks, along with complimentary four week post course support and assistance. A wi- fi enabled laptop (not iPad or tablet) is required for this course along with a basic understanding of ICT and the internet.
